QUALITY POLICY

Nomad Tech

Nomad Tech is committed with high standard levels of quality and excellence in all its activities, being particularly focused on 4 main vectors in pursuit of its vision:

 Search for product and service solutions that deliver results and add value to Nomad Tech's business, by working closely with customers and partners and

building long-term relationships with all stakeholders.

- 2. Careful management and accomplishment of contracts to achieve customer satisfaction.
- 3. Active promotion and development of new and innovative solutions for optimization of railway industry maintenance and operation activities.
- 4. Careful management of motivation, growth and professional achievement of Nomad Tech's employees.

To ensure a high standard of quality, the company has implemented a business organisation according with ISO 9001, complying with applicable requirements and promoting continuous improvement of the management system.
